

ADMISSION TESTING

Tests will be scheduled and administered individually, and usually last around 1 hour. Tests are based on current Bayou Academy curriculum at the grade level of your student. This will not be standardized.

If previous schools do not provide a clear assessment of the student's ability to be successful at Bayou Academy, the school may require additional testing. A nine-week probationary period that will include parent-teacher conference(s), academic evaluations, disciplinary review, and appropriate recommendations may be required. Admission to Bayou Academy is at the sole discretion of the school.
